

# Adaptive Bike

GIVEAWAY

projectmobility

Sponsor

**A LIFE CHANGING ADAPTIVE BIKE**

**EVERY CHILD DESERVES A BIKE**

Children living with physical disabilities want the ability to ride a bike through their neighborhood, play with friends and feel the freedom that comes with being a kid.

*It's truly a rite of passage.*

# Changing Lives One **BIKE AT A TIME**

**Imagine this moment:** A child with special needs, who has never had the chance to ride a bike before, sits on an adaptive bike. They gently push the pedals for the first time, picking up a little speed, and realize they can ride a bike - just like any other kid.

## EXAMPLE

This could be **YOUR** logo

**Let's Collaborate and Change Lives**

# Company BRANDING

**Let everyone know you're part of a life changing story!**

Branding a bike is not only a great form of advertising, it is a way to show communities you support them. A feel-good story is great for any business to show their values and strengths as a team. The adaptive bikes are all tailor-made to the individual leaving lots of room for branding customization along the way. Everything from embroidery to nameplates to spoke covers and more can be customized to your brand. The goal is not to only make the riders dream come true, but also the business' vision become reality.

**Corporate Sponsorship?** Each bike corporately funded through a business can feature the company's logo or brand colors. It's a great form of advertising and a way to show further commitment to engaging with your community.

# Why SPONSOR

Sponsoring an adaptive bike for one of the children in Project Mobility's Adaptive Bike Giveaway is not only granting them access to an additional therapy tool that can improve their quality of life, but it also helps them experience the freedom of mobility that all children deserve.

We hear time after time from parents that their child watches by the window as their siblings or neighbors ride their bikes in the neighborhood.

Sponsoring allows them the opportunity for inclusion and to just feel like a kid. There are only so many years of feeling like a kid. Sponsoring a bike will ensure they get this chance.

Adaptive bikes provide life changing mobility, strength, self-esteem and the ultimate freedom for children, adults and wounded veterans with disabilities. **Cycling restores the possibilities to those whom are often told by society that their life is about limitations.**

Riding a bike may sound like such a simple activity but to those with mobility challenges and the hefty price tag of an adaptive bike it makes it nearly impossible for them to enjoy the freedom of mobility without our help.

# THANK *You*

Thank you for considering sponsoring an adaptive bike, if you would like to move forward please contact us!
